A GUIDE TO WASTE SORTING

A key factor in trash sorting is education. Organics and recycling guidelines can be confusing for managers and residents alike. That is why we have put together a flyer for your residents to clarify which waste items go where*.

RECYCLING

- Paper
- Cardboard
- Glass bottles
- Metal cans

TRASH

- Chip bags
- Candy wrappers
- Styrofoam
- Dirty paper (like pizza boxes)

ORGANICS

- Fruit & vegetable scraps
- Coffee grounds
- Glass clippings
- Eggshells (for industrial composts)

HAZARDOUS WASTE

- Batteries
- Chemicals
- E-waste

*Please check with the jurisdiction in which your community is located or your trash hauler for detailed information about waste sorting.
